To: Detention Facilities

From: ND Department of Health – Division of Microbiology

Date: 3/26/2020

Re: Hepatitis C Genotyping

In response to the increased volume of SARS-CoV-2 tests, effective Monday March 30, 2020 the North Dakota Department of Health Division of Microbiology will freeze all Hepatic C RNA and Genotype samples to run on a later date. If immediate testing is needed, please work with a private/commercial laboratory.

If you have any questions, please contact Kristie Schwarzkopf, Division of Microbiology, at 701-328-6283 or 701-328-6272.
